## SHRINK SLEEVE LABELS

Shrink Sleeve labels are the best alternative when standard labeling techniques are not enough. It wraps the product 360 degrees and offers a wide visual field.

Excellent labeling option for your brands to achieve the highest shelf-impact.

## HOUSEHOLD LABELS

Labels for chemicals must be resistant to external factors thus it can be read for a long time. We produce labels that perfectly meet all the requirements of hazardous substance labeling according to GHS Standards.

## PERSONNEL CARE PRODUCT LABELS

We ensure you to increase shelves-impact for your brand with high printing technology.

## FOOD AND BEVERAGE LABELS

To be noticed and preferred on market shelves, label design and printing quality are extremely important for your brands.

We assure you high printing technology with best customer oriented service.

## SCRATCH CARDS LABELS

Have you ever tried scratching before? Try and see....

## BARCODE LABELS SOLUTIONS

We can print a standard set of barcodes and QR codes on your roll labels, product labels and promotional labels. Barcodes can be sent to us directly as part of your image or as a separate part.

## PHARMACEUTICAL LABELS

The pharmaceutical and healthcare industry are demanding and delicate working fields with frequent revision requests. SPS produces sealing and security labels with durable label materials. The lamination on your labels will protect your product in wet or humid environments. For the first time in Turkey, we have created a 100% secure control system by acknowledging the importance of drug labels for the pharmaceutical industry.
